

## Concept note

The role of biometrics in digital identity management and the protection of citizen's data continue to be front of mind in the Biometrics Institute discussions with members and key stakeholders. We are therefore proud to present the 2023 Biometrics Institute Asia-Pacific Conference, to be held in Sydney on 24-25 May. Now in its 21<sup>st</sup> year, the conference continues to bring together biometric users from key government agencies, commercial organisations and technology providers from the Asia-Pacific region to share ideas and discuss the opportunities biometrics offer and its implementational challenges.

The Institute prides itself for providing a trusted platform for open and balanced discussions about the responsible, ethical and effective use of biometrics. Through our international network, we will curate a compelling conference agenda featuring high profile international and local speakers covering the most critical issues.

### Themes to be covered:

- Trust frameworks and international operability
- Digital identity and biometric service delivery (identity fraud and cyber security challenges)
- Border management and seamless travel
- Biometrics as a service
- Morphing, fusion, liveness and testing and standards

### Confirmed speakers:

- *Jakob Dam Glynstrup, Chairman, Biometrics Institute*
- *Isabelle Moeller, Chief Executive, Biometrics Institute*
- *Lorraine Finlay, Human Rights Commissioner, Australian Human Rights Commission*
- *Chris Tritton, Gold Coast District Duty Officer, Queensland Police*
- *Clarence Yeo, Senior Advisor (Special Duties), Ministry of Home Affairs Singapore*
- *David Lacey, Managing Director, Identity Care Australia and New Zealand*
- *Anna-Liisa Tampuu, Project Manager, Identity and Status Bureau, Development Department, Police and Border Guard Board Estonia*
